Learn About Our Full-Suite Solutions

Student Eligibility

Easily process your district's meal applications. Built-in recognition tools identify the application type, process it, and assign the correct eligibility.

Family Hub

SchoolCafe's mobile app provides a secure and easy way for parents to make payments, view purchases, apply for meal benefits, and view menus from any device.

Inventory

Real-time communication between the central office and sites for accurate and up-to-date information for every item in your inventory.

Menu Planning

Build compliant menus with USDA approved software for nutrient analysis to help your district meet school meal program requirements.

Production

Plan and record with higher accuracy and improved projected counts with forecasting tools and electronic production records.

POS

Process transactions in real time with a mobile point-of-sale system which offers advanced reporting and offline access.
